

Associate of Applied Science in Criminal Justice at Clatsop Community College

Articulated with Criminology & Criminal Justice at Southern Oregon University

Effective Fall 2009 (reauthorized Fall 2010), until updated or terminated by CCC or SOU

About the Program

The terms of articulation of the Associate of Applied Science degree in Criminal Justice at Clatsop Community College with the Criminology and Criminal Justice Bachelors' degree program at Southern Oregon University (SOU) have been developed with the cooperation and support of both programs. The AAS degree, with the course selections described herein, is fully articulated with SOU's Criminology and Criminal Justice program and allows students to transfer directly as juniors and to become admitted into the Criminology and Criminal Justice program at SOU to pursue a bachelor's degree with no loss of credits. The course selections contained within the AAS degree offer an excellent balance of criminal justice and general education courses that support advanced study in the field of criminal justice.

Students should contact the SOU Department of Criminology and Criminal Justice early in the first year of their AAS program to be advised about additional requirements and procedures for admission to the school or program.

Students should be aware that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements in effect at SOU.

Entry Requirements

Students are required to take the placement test employed by Clatsop Community College to determine skill level and readiness indicated by test scores. As part of the AAS program, students must begin study with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Transfer Credit

Coursework from accredited colleges and universities applied to the AAS degree requirements will be accepted by Clatsop Community College in accordance with its policies. In order to ensure that coursework more than 10 years old meets current standards, such transferred courses must be reviewed and approved by the Dean of Learning at Clatsop Community College.

Graduation Requirements

Students using the Associate of Applied Science degree with course selections described herein for articulated transfer must complete all credits with a grade of "C" or better. For courses graded on a pass/no pass basis only, a grade of "P" for these courses indicates a student earned a "C" or better grade.

Note: Students who graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon state college or university: 1) two years of the same high school-level language, or 2) two terms of college-level language with a grade of "C-" or better (may be first-year language which can be used as elective credits). Students planning to complete a Bachelor of Arts (BA) degree at a four-year school will be required to complete the equivalent of one year of study of a foreign language at the second-year level (or above) before graduation.
