

# Associate of Science/Human Services

## Articulated with the Bachelor of Arts or Science in Social Science at Southern Oregon University

2009-2010 Academic Year

Major Code: AS/HS

### About the Program

The Associate of Science degree is based on a signed articulation agreement with Southern Oregon University (SOU). It has been developed in close cooperation with the College of Arts and Sciences at SOU. The SOU departments of psychology and sociology/anthropology offer an interdisciplinary bachelor's degree program focusing on the needs of human service professionals, a Bachelor of Arts or Science in Social Science. The UCC Associate of Science (AS) degree is fully articulated with SOU's Human Service program and allows students to transfer directly as juniors into the program at SOU with no loss of credits to pursue a bachelor's degree.

Students should contact the SOU Human Services program early in the first year of the AS program to be advised about additional requirements and procedures for admission to the school or program. Students should be aware that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements in effect at SOU.

### Entry Requirements

Students are required to take a placement test to determine skill level and readiness in math, reading, and writing. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success. A Human Services program advisor must provide advising and approval of a student's program prior to registration.

Prospective students should be aware of entry requirements of human services agencies prior to considering human services as a career choice. Criminal history may preclude employment in some agencies. Students should discuss their individual circumstances with advisors and determine if any issues might preclude employment in the field.

Students in recovery seeking placement in substance abuse treatment programs may be required to demonstrate two years' sobriety.

### Advanced Standing

Coursework from accredited colleges and universities will be accepted in accordance with college policies and the Human Service program head's approval. In order to ensure coursework is current, program courses over seven years old must be reviewed and approved by the appropriate department head before being accepted toward course requirements.

### Graduation Requirements

Students must successfully complete all credits in this program with a grade of "C" or better and passing the counseling skills competency requirement as demonstrated through a series of videotaped counseling interviews, to receive their degrees. Certain required courses are graded on a pass/no pass basis only. A grade of "P" for these courses indicates a student earned a "C" or better grade.

## NOTES:

\* Up to 124 lower division credits can be transferred to SOU.

\*\*HS 229 is accepted by SOU as an equivalent to PSY475 Crisis Intervention Strategies; however, upper division credit for HS229 is not given. In order for this equivalency to be valid, UCC transfer students must complete the Human Services Associate of Science Degree prior to transfer. Students receiving this equivalency must substitute an upper division psychology course for Psy475 as suggested and approved by an advisor at SOU.

\*\*\*HS155 and HS265 are accepted by SOU as an equivalent to PSY471 Introduction to Helping Skills; however, upper division credit for HS165 and HS265 is not given. In order for this equivalency to be valid, UCC transfer students must complete the Human Services Associate of Science Degree prior to transfer. Students receiving this equivalency must substitute an upper division psychology course for Psy471 as suggested and approved by an advisor at SOU.

Students should be aware that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements in effect at SOU.

Students who complete the Human Service Associate of Science Degree at UCC will not be required to take Psy 471 Introduction to Helping Skills or Psy 475 Crisis Intervention Strategies at SOU; however, substitute upper division level credits in psychology must be taken as suggested and approved by an advisor.

Students who have graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon state college or university: 1) Two years of the same high school-level language, or 2) two terms of college-level language with a grade of "C" or better (may be first-year language which can be used as elective credits).

If students plan to complete a Bachelor of Arts (BA) degree at a four-year school, they must have a proficiency in a foreign language regardless of when they graduated from high school or equivalency program.
